

### **Amendments to the Drawings**

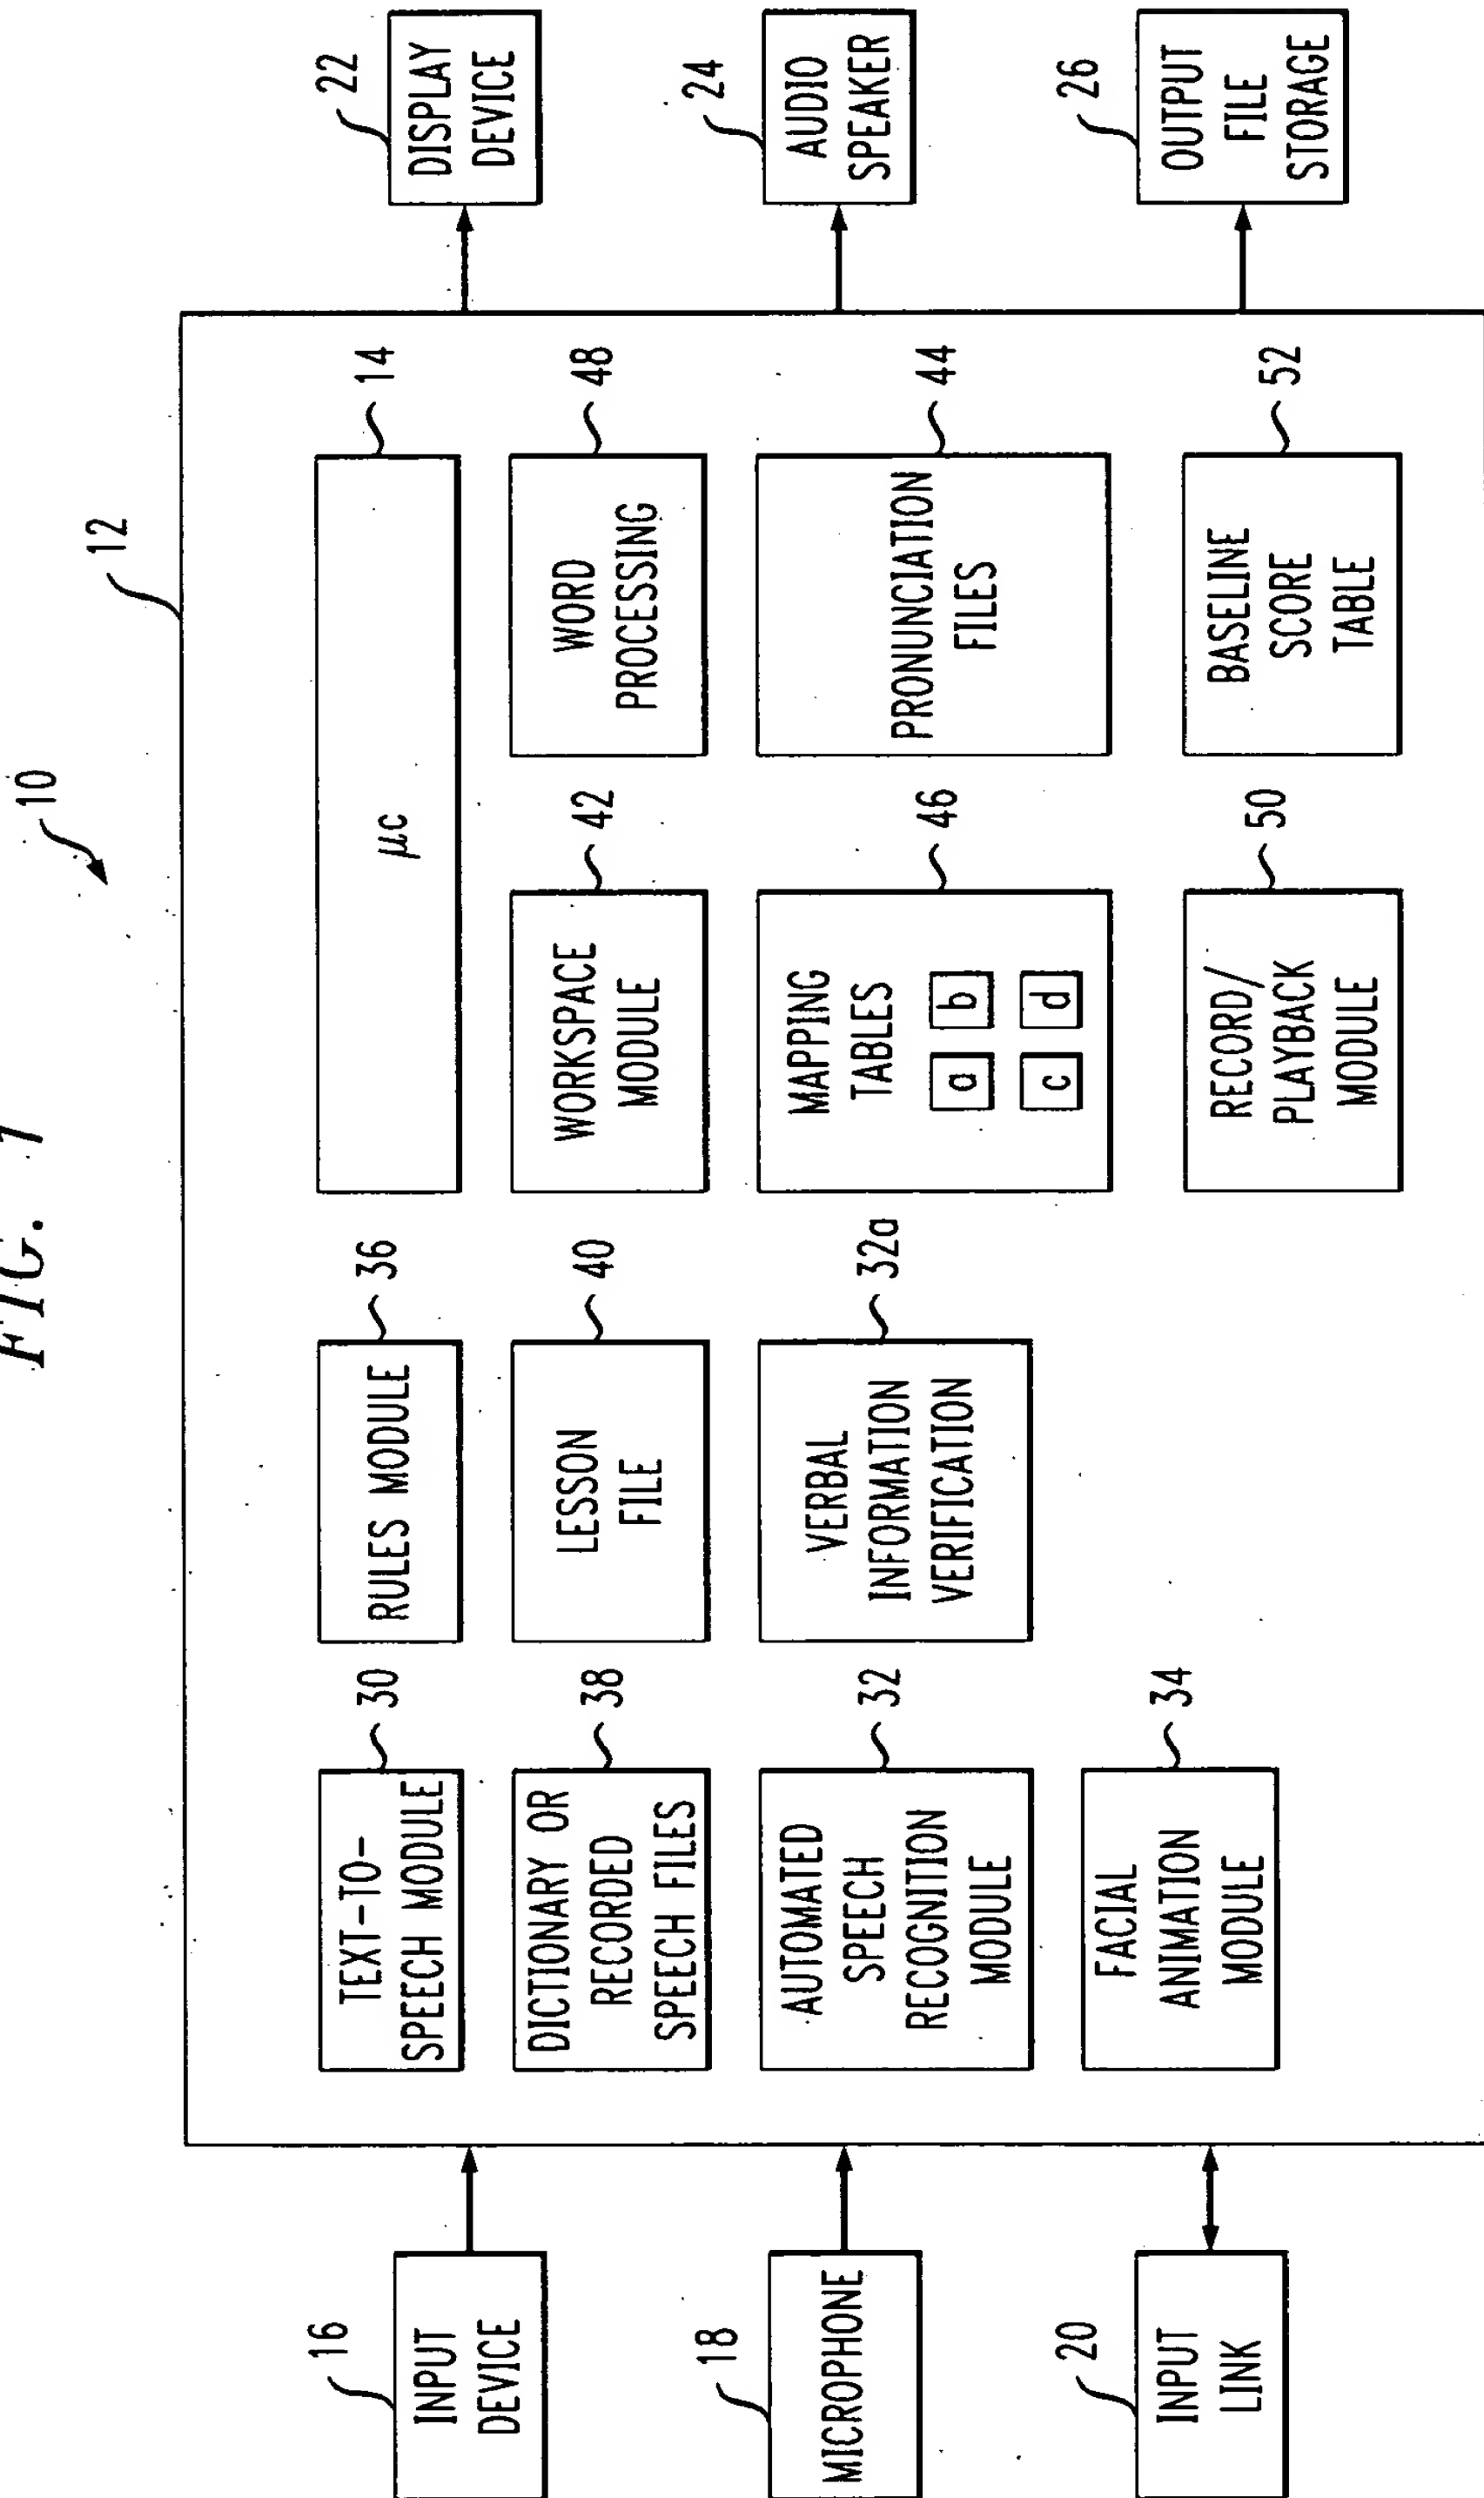

The Examiner objected to the drawings filed September 9, 1999. Ten (10) Formal Drawings, replacing the Informal Drawings originally filed (FIGS. 1-11), are being submitted herewith.

In FIG. 2 slider elements have been added to the volume and speed controls 68a and 68b. Additionally, the symbols have been exchanged between controls 68d and 68e so that an arrow symbol is associated with the play button, as is conventional. It is respectfully submitted that these changes do not represent new matter.
